Course summary

This evidence-based course provides learning about the Fitness to Practise process and being a witness.

Learning outcomes

By completing this course, the learner should be able to:

- understand the role of professional regulators
- understand why people do or do not raise a concern about registrants of professional regulators
- understand the types of information available to people who are interested in raising a concern with a regulator
- explore the experiences of people who raise a concern with a regulator and those whose case is closed before a Fitness to Practise hearing
- explore the experiences of people who are required to be witnesses at a Fitness to Practise hearing
- describe the ways in which regulators can improve the Fitness to Practise process based on research findings.

Completed study

The learner has completed the following:

Session 1

Session 1: Raising a concern

Session 2

Session 2: How do people experience the process of raising a concern?

Session 3

Session 3: How do people experience the Fitness to Practise process after raising a concern?

Session 4

Session 4: How do people experience the Fitness to Practise hearing?

Session 5

Session 5: Research recommendations
